

C-TANE PLUS™

The Diesel Fuel Cetane Improver

C-Tane Plus™ raises the Cetane Rating of Diesel Fuels for Significant Operating Improvements. Cetane is measure of a fuels ability to auto-ignite. With diesel engines this is a critical factor affecting cold starting, power output, emissions, and the operating sound level of the engine. Most OEM Engine manufacturers recommend a Cetane Rating of 45 to 50, while most fuels available in the US and Canada provide a rating of 40.

Using C-Tane Plus™ to raise the Cetane Rating of fuel will:

- Allow Faster Engine Starts – Especially in cold weather
- Reduce Smoke and Improve Emissions
- Smoother Engine operation
- Quieter Engine Operation
- Increased Power and Better Performance

Directions:

For best results, add contents to fuel tanks prior to fueling and according to printed directions.

Use 32 ounces for each 250 gallons of fuel (1:1000 treatment ratio).

This product should be used every time you fuel for best engine performance.

For cold weather treatment of fuels, use **Polar Flow™** or **CFT – Complete Fuel Treatment™**.

For more information please consult the Material Safety Data Sheet for this product.

All used and unused product and its containers should be disposed of in accordance with all local, state, and federal regulations.

Keep This Product Out Of Reach of Children
